Abstracting and indexing

ENT Updates is covered in the following abstracting and indexing databases; Web of Science-Emerging Sources Citation Index, DOAJ, EBSCO, Proquest, CNKI, TUBITAK ULAKBIM TR Index.

Aims, Scope, and Audience

ENT Updates aims to publish studies of the highest scientific and clinical value, and encourages the submission of high-quality research that advance the understanding of otorhinolaryngology and related subjects.

ENT Updates covers a wide range of topics related to otorhinolaryngology, including diagnostic methods, treatment techniques, and prevention strategies. The journal is interested in publishing original research that addresses important clinical questions and advances the understanding and treatment of these conditions. This may include studies on the effectiveness of different treatments, new diagnostic tools or techniques, and novel approaches to preventing or managing conditions related to the ears, nose, and throat.

ENT Updates publishes clinical and basic research articles, experimental studies, reviews, case reports, expert opinion on guidelines, systematic reviews, bibliometric analysis, historic communications, and letters to the editors.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested in or working in the otorhinolaryngology field, and related disciplines.
